

Call to Order and Roll Call

Approval of the Journal: Available at [bit.ly/ASG-Senate-Minutes](http://bit.ly/ASG-Senate-Minutes).

## Executive Board Reports

- Katie: Apply to be Caucus Whip
- Ani: Look at Agenda.
- Alex: Help with t-shirts tomorrow at the field.
- David: Sign up to be a mentee if you are a sophomore or freshman. You will meet with an upperclassman every 2 weeks to talk about your future with ASG. Any questions?
- Sophia: I have a huge list of projects in the agenda. We are also gathering questions for a survey for each committee for the whole school. This will help target what we can look at and work on. Look at the agenda for details of the projects we are looking on, such as electronic course packets, grant pools for JR and practicum, dialogues for study abroad. Please just look at the list. Also, chargers at the library. I am looking into it. The ones at tech are still available.
- Siddiq: Lots of great programming going on, like Adrain Grenier with SEED or Project Pumpkin. We are having elections for SAFC AE's later tonight for both Senator and non-Senator position.
- Katie: Kevin is sick but look at his exec board report.
- Noah: We are still working on Study Abroad Guide and that should be out in the winter. WE are also re-designing JobCat, so look out for the PR push.
- Mark: Are you looking for student opinion on study abroad?
- Noah: I wasn't but we can.
- Sheng: I am meeting with NUIT. If you have a problem with WI-FI, please submit it online, because that is the only way they can track it. I am also meeting about creating a Northwestern API. Which will help students write code for apps that would be helpful for students.
- Julia: Read my updates, but our events listserve is now working. Please fill it out! 1800 students are on it already. We are working on student athletics and we are working on mental health.

Special Order: [Associate VP for Diversity and Inclusion Confirmation -- Thaddeus Tukes](#)

- Ani: Just to give you guys a refresher on the committee itself, a few of us came in and presented this revamped position. This position was created last year and works under the Director of Student Life. We updated the position description to include how Northwestern approaches Diversity and Inclusion. The position is not the sole person in ASG responsible to all things Diversity and Inclusion related. They are the expert and the person of contact and help us navigate issues related to Diversity and Inclusion. The position is supposed to serve all students on campus, because at this university we hold Diversity and Inclusion highly. Any questions? Thaddeus really blew us away in the interview and touched on not only the obvious issues, but also more subtle ideas.
- Thaddeus: My name is Thaddeus Tukes, I'm a sophomore here, doubling in Jazz Studies and Journalism. I applied for this position because I have not only observed events last year and this year, but also I've also spoken to many leaders and have noticed holes in communication. I don't see minority groups just as race, gender, sexuality, etc. but any group that is underrepresented.
- Taylor: One advantage members on exec have had is the time they've had already. How will you start out?
- Thaddeus: A lot of what I'll be doing are things I've already started doing on a micro-scale. Being in this position allows me to do it at a larger scale. I don't have the same experience they've had, but I do have experience and knowledge that I can use and apply to that larger scale.
- Alex: What do you say is the most similar position to this one that you've held in the past?
- Thaddeus: I'm also the editor of Pulse Magazine and one of my roles is expanding the magazine. How can we reach more communities and expand what we're doing. I've been in that position for a year and it's my most applicable official experience.
- Mark: You are obviously very accomplished on campus and I imagine you double majors are also time consuming. How will you manage your time?
- Thaddeus: It's just a matter of changing spaces. A lot of what I'll be doing are things I already do every day. Now, instead of it being in

my own personal space, it'll be in the public space. It will be an additional time commitment, but definitely manageable.

- Alex: When did you hear about this position and when did you make your decision to run?
- Thaddeus: I heard about it last year and didn't realize that it was open this year until a day before the deadline. Luckily there was an extension.
- Isaac: How are you at relating to people who are not a member of your specific community?
- Thaddeus: Even within my own community there are people that are very different. The way I approach everything is very open. I know I'm in a unique position. I'm the only jazz studies and journalism on campus and I would like people to approach me as a unique and open person, so I do that for them.
- April: How do you plan to use ASG to bring together different communities?
- Thaddeus: The first step is to approach the student and faculty leadership in various realms. If you get all of the leadership on board and on the same page, it'll be easier to connect the groups. I will be going person to person and within groups of friends, but the key thing is to get the leadership in on the same agenda. Then we can expand and simultaneously become inclusive.
- Mark: Have you had the opportunity to interact with the committee as it exists now?
- Thaddeus: No I haven't. That's probably because I'm not in the position.
- Mark: How do you plan to lead a committee?
- Thaddeus: The best example I like to lead is being the leader of a band. I know about egos and personalities and opinions. As a leader, you have to listen to what everyone has to say and understanding what we can do and what we can. Not everyone will agree, but I'm going to try my absolute best to compromise.
- April: How do you plan to get other students involved in ASG, especially communities that are underrepresented.
- Thaddeus: Leadership. I have to go to the people with sway and have them explain how important it is. We need to impress on

everyone how important it is to be a part of ASG and be able to influence change. Leadership is the first priority, but after that I want to work with that leadership to help communities understand the importance.

- Gio: Can you list off some of the relevant people?
- Thaddeus: I can say I've spoken with – administration is a difficult one. I have not yet been in a position to address them forthright. I've spoken with the leaders of Alianza and FMO. That's how I found that there was a lack of communication between those two groups. Obviously there are more groups than that. I do have to reach out more to leaders, but that will definitely happen.
- Katie: Okay that is the end of question period.
- Mark: Motion to extend by three minutes.
- Senator: Second.
- Taylor: There are obviously some students who don't think diversity is important, what do you say to them?
- Thaddeus: It really is hard to convince people who don't see the need. First, I would express to them the amount of resources they would have access to in an inclusive environment. Friendships, relationships, jobs, careers, everything. If you want to become the best you, that requires putting yourself in positions that you might not be comfortable with.
- Alex: Who's your favorite jazz musician?
- Thaddeus: That's a hard question, bro.
- Angela: One of the issues in diversity debates has been the emotionality that arises. How would you approach that obstacle?
- Thaddeus: I would let them know that being emotional is okay. Different experiences will cause emotional responses. What I will do is create safe spaces. Yes this will be touchy, emotional, and you might be offended, but we have to go there. I won't say it'll be emotionless, but I want to help people work through that.
- Katie: That's the end of question period.
- Mark: Motion to extend by 3 minutes.
- Senator: Second.
- Mark: The university is using the euphemism "uncomfortable learning." What do you think about it?

- Thaddeus: I think the concept is good, but you're predisposing people to feel uncomfortable. I do like the idea of people being uncomfortable, but it could be reworded.
- Harrison: What do you see being your major accomplishments a year from now?
- Thaddeus: Communication, because once you establish that, that's how you get expansion and change. I'm also interested in mental health and we've seen the consequences of ignoring our well being. I want to work with Student Life and the rest of exec to help us feel like we're in a safer and more comfortable environment. We're young, we should not be this stressed. I don't want to give a general answer, but more inclusivity. It sounds ambiguous, but in general we should have a safer and more comfortable environment between communities.
- Katie: That's the end of question period.  
[Confirmed unanimously.]  
[OATH ADMINISTERED]

#### General Order: 10K Committee Elections

- Katie: We will now move to the non-Senator positions for the 10K committee.
- Alex: The 10K Committee is in charge of conducting the 10K Initiative. Fall is a low commitment about getting the word out and getting students to submit the ideas. Then in Winter we narrow down the ideas that then get submitted to Senate. Then 4 weeks to the end of Winter, the final ideas get sent out to students to vote on. Then Spring is about getting it accomplished.
- Katie: We have 3 non-ASG positions.
- Senator: Frances
- Alex: 2<sup>nd</sup>
- Harrison: Dane Steer
- Alex: 2<sup>nd</sup>
- Dane: What is going on? No thanks.
- Alex: if any positions, aren't filled, I can just fill them.
- Isaac: How? Your friends?
- Alex: It is up to my discretion, but it will be a legitimate process.

- Frances: My name is Frances Woo and I am a junior. I want to be on 10K because I am very involved on campus. I founded a group on campus promoting public and mental health. I am involved in SHAPE and my Greek community. These experiences have given me the opportunities to work with ASG already, working on the alcohol working group and others. I really want to help the Northwestern student body. I have great time management skills, but I have already made connections to many people on campus.
- Alex: What was your favorite idea last year?
- Frances: The mental health one.  
[Confirmed unanimously]
- Katie: We will now move to fill 3 ASG spots. Nominations?
- Harrison: Korri and Evan
- Korri: I accept
- Evan: I accept
- Angela: Danielle Lay
- Danielle: I accept
- Isaac: Mark Silberg
- Mark: Kind, but no.
- Nevil: I nominate myself.
- Korri: I am the Elder Senator and I am interested in being on the 10K committee because this year as a freshman I have been blown away by how passionate the student body is. And I want to be an active part to help facilitate having student ideas come alive.
- Evan: I am the Allison Senator. I was on the 10K committee last year, and I love working to make student ideas real. It is like a live Campus Voice.
- Angela: I am on SGC. I want to be on 10K because I think ASG is an invaluable resource to Northwestern and people underestimate the power of student voice with ASG. I think that is really important. On campus, I have been involved in SGC since Freshman year, I am VP of Finance for one of the newest groups for NSH, and I am in an a cappella group.
- Nevil: I am on Services. I was on D&I and PLI and that allowed me to get exposed to many aspects of Northwestern. I am a CA. The

10K really fascinates me, and the idea of getting ideas and seeing it through to completion I would really like to do.

- Petros: What would be your winning 10K idea?
- Evan: I am going to go with one that I saw last year. Sorry to be cheating. I would go with an outdoor movie theater. I think it would be a great way to bond the Northwestern community.
- Danielle: More Saferides. More cars and resources.
- Nevil: I would suggest updating the bus signs to track shuttles and buses.
- Korri: I would want to update Patten gym. I would want it to be a more full-scale gym. I think it would help with late night workouts and on cold days when walking isn't very good.
- Isaac: I move to end question period.
- Senator: 2<sup>nd</sup>
- Alex: Oh and Maddy Low wanted to run. Here are some notes she sent me to read:
  - 1. I'm Maddy Low, senior theatre major, environmental policy minor, Chinese minor. I'm the senator for StuCo.
  - 2. I'm interested in the committee because I think a lot of NU students feel like there's a lot of bureaucracy in the way of their voices being heard about suggestions they have to make NU a better place, things that don't fit into the established channels, and the 10K is a great avenue for them.
  - 3. I'm currently in a show that rehearses 4-5 nights a week (hence why I'm not at senate this week) but weekends are free and the show ends mid-November.
  - 4. I've produced student theatre before so I have first-hand experience with how far an amount like \$10,000 can go on campus, and the proudest I've felt as a producer was when I was able to not only say "yes" to a team member's idea, but be able to support it with money we raised. I've been involved with all kinds of activities in my four years from Jones Res College exec to marching band to theatre to Engineers for a Sustainable World so I've got my feet in lots of areas on campus and think I would be a good candidate to

raise awareness and have conversations about the 10K initiative across the spectrum.

[Winners: Evan, Nevil, Maddy]

- David: Motion to move SL1314 up.
- Senator: Objection.
- Katie: We move to debate.
- David: Motion to suspend the rules and vote.
- Senator: Objection
- Katie: We are going to go to a vote.
- Katie: Now we are going to go for a vote on whether to move the agenda item up. That's two thirds, so we are going to see the new business SL1314 now. We are in line for an authorship speech.

New Business: [SL1314-02: Increasing Dance Marathon Accessibility](#)

- DM Exec: First off thanks for changing the agenda. As a bit of background information, we strongly feel that DM is one of NU's strongest organizations. No matter who you are you can participate, but the \$50 registration fee does stop people. We are asking for some money from the Senate Pool. The students would have to apply for a scholarship through CSI to help them register to dance. This is a registration fee and should not be confused with the money raised for DM. Students who get external scholarship will be considered in the same way as people with Northwestern Financial Aid. One of our goals is to help people sign up who aren't able to financially. Any of the \$4000 that isn't used will be given back to the pool. And if it is used, that shows we do have need. And according to ISBE the reason most students are not able to participate financially is due to the registration fee.
- Senator: What if they can't raise the \$400?
- Janet: That is a difficult question, but we would refund the \$50.
- Josh: We wouldn't give back donations, but we would refund the \$50.
- Sean: How much do we have in the Project Pool?
- Katie: \$15,000
- Taylor: Why don't you just waive the fees?
- Josh: We need that money for the actual production of DM.

- Anna: And any money that is raised goes straight to the beneficiary.
- Taylor: Why don't you get the productions money donated?
- Janet: The money from registration fees does not cover all of the production costs and we do raise money for it as well.
- Nikki: Would this go to towards this year?
- Anna: Yes, on the registration right now there is a box you can check to talk to a CSI member.
- Isaac: Is this something you are going to ask for every year.
- Janet: We are looking for more sustainable resources.
- David: We have talking to PTI right now. We are a sustainable group, but we are in the position that we need those fees to make DM possible.
- Sean: Can you talk about your decision to be B-Status?
- David: This is due to revenue fees. If we received a large amount of money, it would be worth it. But since we would have to give back 80% of ticket sales (registration fees) to the fund, it does not make sense for us right now to become and A-Status group.
- Isaac: So you will never become A-Status?
- David: That is not necessarily true. We are looking at adjusting the rules to make it make sense for us.
- Isaac: You guys get a lot of corportate sponsors. You would just raise \$1M instead of \$1.4. So is that what you are asking from Senate?
- Janet: No that is not how our corporate sponsorships work.
- Anna: It would be considered embezzlement if we didn't have what they donate for exactly go towards exactly towards that.
- Sophia: Would you look at Student Affairs to get money, if it wasn't awarded tonight? Or would your return the money not used to the Pool? So, if only 1K is given or even used?
- Josh: Yes. We are making a conservative estimate.
- David: The money could go back this quarter.
- Natalie: Would it be helpful if I explained the SASF? This is a fund for \$5000 per quarter, and it is a fund that is used for any student for any student group that demonstrates for need for financial aid. The way that is vetted is that they fill out an application and sign

something that lets me go to Financial Aid to get a ranking. It is not a perfect system, such as if you receive money from another source for school. We are encouraging students to apply for this first, and then this money that you are giving would help supplement that.

- Katie: We are out of time.
- David: I motion to move this to old business due to time sensitivity?
- Senator: Objection
- David: We need the money this year and it would be negligible for next year. Registration ends Friday.
- Josh: Not totally negligible. But if the idea is about inclusion, we need to make sure we have the money this week.
- Senator: Would this make it old business and move to the end of agenda?
- Katie: Yes
- Petros: You all probably set this time for registration a long time ago, and you should have come last week.
- Ani: As an old Speaker, I understand the importance of parliamentary procedure. But, this idea has developed over the past couple of days, and we have been trying to connect the dots. But we are talking about inclusion here. We want to make sure DM is representative of the whole student body.
- Isaac: I don't understand why you can't move your deadline one week to accommodate the procedure of Senate, because you are asking for 1/3 of our money for the year.
- Evan: I do understand what you are saying, but not making this old business that makes this money useless.
- Alex: I absolutely understand the objections, I normally would agree, but this money will not be gone immediately. The money will only be gone if students really need it. And isn't that what the pool is for?
- Taylor: I think that one thing is being said is that this would be good for our constituents. But, if I don't talk to my constituents, then I don't know. Also, if registration for DM has increased each year, then I am not sure why this would be necessary. And I think

extending registration due to finance concerns, that would be creating more inclusivity.

- Sean: They came in here with a lot of background information and data.
- David: If you were to talk to your constituents, they would say 2 things, "yes I do this money, or not I don't." So the money will be spent or it won't. And the bill is built for just that. As a long-time member of ASG, I understand, but I don't want this to affect someone's ability to participate in DM.
- Will: I think we need to be able to go back to our constituents.
- Mark: Authors, can you explain the claim that students don't participate because of the registration fee?
- David: ISBE analytics conducted it because they are much better at it. I am not sure how they question is worded, and but I know that need for a fund like this is needed. This would pay for 80 students, and if 300 apply then we will take a look at they applications.
- Katie: Okay we are moving to vote.

[vote passes]

This will be considered as Old Business.

Winners: Maddy, Evan, and Nevil

General Order: SAFC Elections

- Katie: okay we will start with non-Senator elections first.
- Siddiq: Okay we will vote for non-Senator positions first. As a member of SAFC, you work with large student groups with their funding and programming. There are a lot of great plusses about working on this committee. You need empathy, good communication and purple pride.
- Sean: KC
- KC: accept
- Sean: Jason
- Jason: Accept
- Sean: Amrit
- Amrit: Accept
- Katie: introductions
- KC: I joined last quarter and I have had a great experience working with student groups and I want to continue working with them.

Working on the SAFC, I have noticed continuity working with the student group is extremely important. Also, there is a huge learning curve, and I think I am in a great position to help my groups continue to be doing well.

- Jason: I am a five quarter member of SAFC. I agree experience is really great. I have help coordinate inter-group programming. And I think that the relationships I have are strong and should continue.
- Amrit: I am a senior and not to beat a dead horse but I have been on the SAFC since my sophomore and have really enjoyed my time.
- Alex: Motion to end question period
- Senator: 2<sup>nd</sup>
- Isaac: Motion to white ballot.
- Senator: 2<sup>nd</sup>
- Sean: I object.
- Isaac: They are all wonderful and incumbents, and they should all be voted in.
- Sean: The group leaders have just been waiting for so long.
- Katie: Okay we are now voting to move to a white ballot.  
[Passes]
- Katie: Okay, vote to white ballot.  
[Passes]
- Katie: We have 3 spots for senators? Nominations
- Karley: Eliza
- Eliza: I accept.
- Jamie: Sean
- Sean: I accept.
- Ani: Tori
- Tori: I accept.
- Alex: Adam
- Adam: 2<sup>nd</sup>
- Petros: Will
- Will: Accept
- Senator: Ronak
- Ronak: I accept.
- Eiiza: I am a sophomore, RTVF, I am the A&O/Mayfest Senator, and I want to be on SAFC because I have had a great experience with

my student groups and I want to apply that to other student groups.

- Sean: I'm Sean, junior, IFC Senator. I have been an AE for a year now, so I do know the time commitment. I have worked with 3 very unique groups, smaller and larger. I have helped the smaller groups rise up to success, and the larger groups continue to succeed. As an AE, I have learned a lot and gained a lot of experience that I think is very necessary for this position.
- Tori: I was a senator until the end of last year. I am the longest standing member of the SAFC and have worked with all sorts of student groups. And it has been the most rewarding experience. We currently have a young board, and I would love to see it continue to grow.
- Adam: This is my second time to run for SAFC, and I am very passionate about student groups. This year, I asked Siddiq how I can pitch in. I have now talked to 15 student groups, asking how can we help them as ASG. Because what is obvious to an AE, may not be apparent to student group leaders. I have been a leader of student group, and I think that experience would really aid me even though I haven't served on SAFC yet. I think I would be an innovative and helpful AE.
- Will: I am a junior and a College Republicans Senator. I have worked at 2 banks, so I think I can combine my experience there and with student groups and ASG.
- Ronak: I am an off-campus senator. I want to give Northwestern a bigger focus of the whole school. I am apart of model UN, and we raise our \$50,000 budget internally, as well as working on our current deficit. I have lot of experience with student group budgeting, and I want to help work with groups to get recognized, because we have a lot of student groups that should be heard, and
- Sophia: Years?
- Sean: Junior
- Tori: Senior
- Adam: Junior
- Will: junior
- Ronak: Junior

- Eliza: Sophomore
- Siddiq: We do work a lot of hours but it is a selfless job. You have 2 midterms on Wednesday and it is Tuesday, and you have to attend an SAFC meeting or else Blowout won't happen. When have you
- Tori: I have a job offer, so school doesn't matter anymore. I would definitely prioritize the group over the school work and I have done it before and I will do it again. It's about programming using a lot of money compared to one grade.
- Adam: I interviewed this week with a student group leader when I had to study for a midterm. I would make sure to make us. Also, we could create an anonymous facebook persona, so all can take advantage of asking questions.
- Will: It is all about prior planning, so hopefully it won't happen. But if that were to happen, you need to make this commitment a priority. I am apart of ISBE, and working with micro financing I had a lot of reports to get in and prioritized ISBE.
- Ronak: I would make sure I didn't get into that issue. And my grades only affect me, so I would have. I have 2 midterms tomorrow, so I am experiencing that tonight.
- Eliza: A&O Blowout, I had a lot of work, so did I have to pull a lot of late nights. Yes, but it was worth it.
- Sean: I think knowing what you are getting into before you do it really is important. Being flexible with your schedule means good communication. So working with. Also, I am a film major, so that is not that burdening...were going to cut it off there.
- Isaac: I motion to close question period
- Alex: I object.
- Isaac: I rescind
- Amrit: Time commitments?
- Adam: I am apart of the c. I will make sure that the student groups that I work with will always be able to reach me. I have worked with an AE and know the importance
- NARS, NUCR, and Senator
- AKPsi, and Model UN, but those aren't too time consuming until Spring for Model UN.

- Eliza: Senator, DM and A&O committee members. I am good at time management though, so I don't see that as an issue.
- Sean: A&O and DM Committees, Deans Advisory Council, WW, treasurer of fraternity. It sounds like lot, but I have been juggling that for a while.
- Tori: Exec board for Mayfest, Case, Contemporary thought speaker series, I graduate in winter too so I have
- Alex: concluding remarks?
- Will: I am experience and happy to help out
- Ronak: I think I am qualified.
- Eliza: I am the only sophomore and want to start early.
- Sean: I want to continue with my groups
- Tori: this has been one of my favorite experiences at Northwestern, and I couldn't imagine not being on the SAFC.
- Adam: I think experience is essentially and I have that to be a great AE.

[Winners- Eliza, Tori, Sean]

Old Business: [SL1314-02: Increasing Dance Marathon Accessibility](#)

- DM Exec: I think at this point everyone understands the logistics. From our understanding inclusion is the end goal for everyone and I know that's a priority for ASG. The project pool is really cool and using all the money is ideal, because it shows that there is a need. The competency about us does not have to be worried about, because we are going through the Northwestern department that always does this. We've been asked why we aren't trying to get this money from other places and it is because we know that ASG's mission matches this initiative. This is a great way not to ask students to single themselves out, but to give them an opportunity to ask anonymously. If we get this from ASG then we can use it to show the administration later on.
- Isaac: Are you putting any of your own money to this? For instance, you could have some kind of fundraiser for production expenses?
- Josh: For us it is really difficult to distinguish the fundraising for the organization and the beneficiary. For legal purposes, we want to keep fundraising for the beneficiary. We are not giving Senate Pool money to Team Joseph and we are not going to ask people to

fundraise for a tent and not for the beneficiary. Our costs go mostly to put on DM as a production. We haven't put forth money to do this, because we don't have the capacity to do so.

- David: We were cornered to raised our registration fees. We are have a lot of expenses and pressures that made us raise our registration fees 11%.
- Taylor: You said this was a short-term solution but you are looking towards longs term. What are some of those?
- Janet: We are hoping that this will be a catalyst for other Northwestern bodies to help out in the future.
- Josh: This is a conversation that would need to happen in the spring.
- David: We have already talked to PTI. If you think that we think this is our fund, then next year you can turn it down. This pool is for causes just like this.
- Isaac: Do you see these extenuating circumstances being an issue in the future.
- Janet: NAA will be helping a lot more in the future.
- Arian: You said that you may go around the conventional revenue sharing. Are those conversations already going on?
- David: That is something we are looking to explore in the future. But I may have misspoke, but we are looking at our options for more sustainable sources of funding for issues like this in the future.
- Ronak: Was the 11% inflationary, or reasons why you aren't getting as much sponsorships?
- Janet: It is mostly due to relationships over the years with sponsors and donors.
- Josh: Each year we work to make the event safer and that is costly.
- David: the extra costs are mostly due to a new financial system that we had to use that was unexpected. But Northwestern is working to help create a better financial system.
- Taylor: Why wouldn't you just lower the cost for student for those who can't pay?
- Janet: We need a registration at X level because the revenue from registration helps cover a portion of our production costs.

- Taylor: Did you have an increase in dancers from last year?
- Anna: Yes, but that doesn't necessary mean it was from low income students.
- Isaac: I have an amendment. Be it enacted here assembled "\$2,000 be allocated from the ASG Senate Project Pool to provide up to \$2,000 of matching funds". I think it is too early in the game to allocate almost 1/3 of the Pool. I don't remember even when we took this money out of the budget, other than the fireworks at Dillo Day. They said that they couldn't raise funds that wouldn't go to the beneficiary. And I don't think that is the case.
- Senator: Did we spend the entire pool last year?
- Katie: Not sure...
- Alex: At the beginning of Spring, I think only \$1000 was spent and \$5000 after that went to the project pool.
- Isaac: I rescind.
- Senator: Where did the fireworks money come from?
- Sean: The fireworks are now sustainable.
- Sarah: This is money goes towards production costs. This money just offsets that for students.
- Sean: They are B-status for a reason. On SAFC, we allocate \$1.4M pretty quickly. \$20 for a B-status is a lot, and this would not be much for a production like DM.
- Siddiq: Did you work in a deficit last year since you didn't get any money last year from funding?
- John: A lot of our funding comes from registration and a small fee from our beneficiary.
- Dillon: When would the unspent money get rolled back?
- Natalie: This quarter?
- David: Yes.
- Katie: Move to a vote  
[Vote passes]

#### Good of the Order & Announcements

- Alex: Reminder, please help me with t-shirts tomorrow. 3:30. PR requirement.
- Jamie: AChiO we are selling hot chocolate. Earth ball tournament on Saturday.

- David: Dance Marathon. Register for by Friday. IN all seriousness, please help get the word out. This is why Senate is its size and is a cross-section of campus. Those unwilling to pay, please tell them that this is not an option.
- Sean: A&O is screening "The Way, Way Back" so come see a free movie.
- Siddiq: Tomorrow is Northwestern's food day. They are connected to campus kitchens.

Roll Call and Adjournment
